Siemens PLM Software appoints Edge Software as Tier 1 Velocity Partner

I am pleased to announce that Siemens PLM has appointed Edge Software as a Tier 1 Partner for Australia. This appointment is in recognition of Edge Software successfully delivering Solid Edge, CAM Express, Femap and TeamCenter Express solutions for over 6 years in Australia.

Edge Software will continue to manage and support your Siemens PLM software but now with enhanced and direct access to the Siemens global support and regional resource centres.

I am extremely proud of Edge Software's relationship with Siemens PLM Software and our elevation to Tier 1 status comes at a very exciting time with the imminent release of new versions of Solid Edge, Femap and TeamCenter Express. Solid Edge ST3 will be shipping this month and is packed with customer enhancements plus many new features.

I would also like to take this opportunity to thank you for your continued support of both Edge Software and the Siemens Velocity products. We are constantly looking at innovative ways we can improve our service and extend our product portfolio and I would appreciate any feedback you may wish to make.

Thank you again.

Best regards

Barry Bevis

Managing Director
Edge Software Pty Ltd.
